FOXLEAGUE, IN YOUR AI

Ask any AI assistant about tournaments, teams, players and the market. One link. Read-only. Live data.

<https://foxleague.ai/mcp>

WHAT WE BUILT

An **MCP server** for FoxLeague: the open standard that lets an AI assistant use an app, the way a browser opens a website.

Ask in plain words

"Which tournaments are open?
Who leads the table?" The AI picks
the right tool and answers.

Read-only

It can look, never touch: no sign-
in, no payments, no joining,
no listing.

Same data as the app

Every answer is what anyone
sees on FoxLeague, live from
our servers.

TWELVE TOOLS, FOUR AREAS

Tournaments

list_tournaments
get_tournament
list_challenges
find_free_tournament_starts

Rankings and managers

get_leaderboard
search_managers
get_manager

Teams and cards

get_team
get_card

Market and rules

list_marketplace
get_floor_prices
get_game_config

SAFE BY DESIGN

-  **Read-only.** No sign-in, no payments, no transactions.
-  **Public answers only.** The same data anyone sees in the app.
-  **Matches are live.** A score is there when the match ends, as for every fan.
-  **No keys, no wallets.** It never asks for either.
-  **Player text is data.** Names and titles are never followed as instructions.
-  **Walled off.** Its own container; the game's data stores are out of reach.

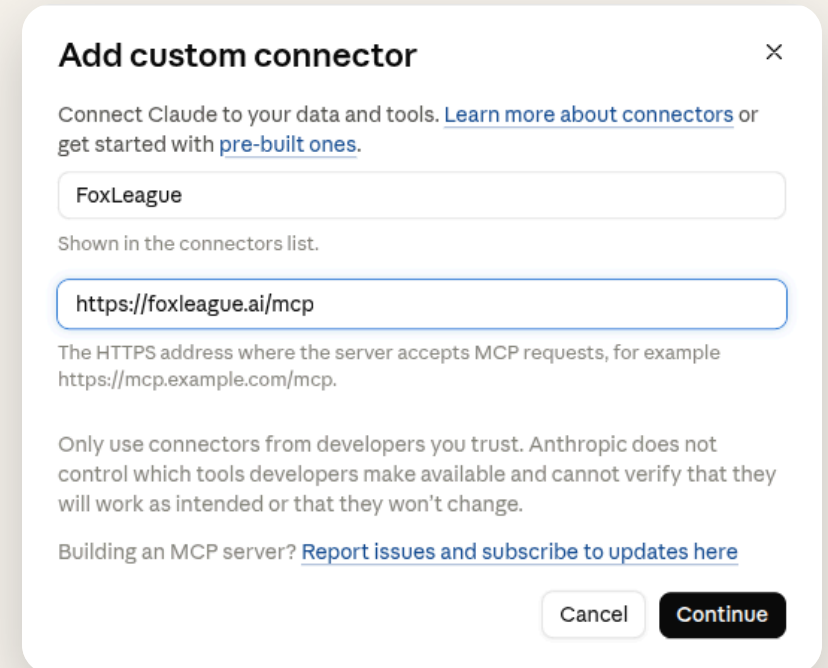

TRY IT: CLAUDE IN TWO MINUTES

- 1 Open **claude.ai** and select + in the message box.
- 2 **Add connector > Add custom connector.**
- 3 Name it FoxLeague, paste the link as the **MCP server URL**, then **Continue.**
- 4 **No sign-in** (Detected) and **Streamable HTTP** are already set: select **Add.**
- 5 In a new chat, ask: *"Who are the top 5 teams in FoxLeague?"*
- 6 The first time, Claude asks to use FoxLeague: select **Always allow.**

THE LINK

`https://foxleague.ai/mcp`

Claude on the web. It works on the Free plan.

The screenshot shows a modal window titled "Add custom connector" with a close button (X) in the top right corner. The text inside says: "Connect Claude to your data and tools. [Learn more about connectors](#) or get started with [pre-built ones](#)." Below this is a text input field containing "FoxLeague". Underneath the field is the text "Shown in the connectors list." followed by another text input field containing "https://foxleague.ai/mcp". Below this field is a note: "The HTTPS address where the server accepts MCP requests, for example https://mcp.example.com/mcp." Further down is a disclaimer: "Only use connectors from developers you trust. Anthropic does not control which tools developers make available and cannot verify that they will work as intended or that they won't change." At the bottom, there is a link: "Building an MCP server? [Report issues and subscribe to updates here](#)". At the very bottom right are two buttons: "Cancel" and "Continue".

The form in Claude, filled in for FoxLeague

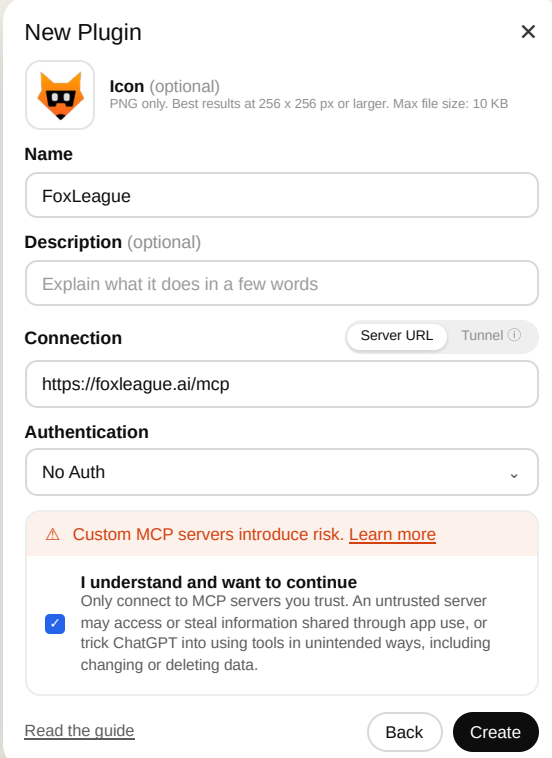

TRY IT: CHATGPT IN TWO MINUTES

- 1 Open **chatgpt.com**, then **Plugins** in the sidebar: **Installed** > **Developer mode** >.
- 2 Turn on **Developer mode** (marked **ELEVATED RISK**), then close the settings.
- 3 + at the top right > **Add custom MCP server** > **Create MCP App**.
- 4 Name it FoxLeague, paste the link as the **Server URL** and pick **No Auth** for Authentication. Optional icon: docs.foxleague.ai/guides/foxleague-icon.png
- 5 Tick **I understand and want to continue**, select **Create**, then **Connect**.
- 6 In a new chat, pick **FoxLeague** in the + menu and ask: *"Who are the top 5 teams in FoxLeague?"*

THE LINK

<https://foxleague.ai/mcp>

ChatGPT on the web, free plan included. In a work or school workspace, its settings decide whether custom MCP servers are allowed.

The screenshot shows the 'New Plugin' form in ChatGPT. It includes fields for 'Name' (FoxLeague), 'Description' (optional), 'Connection' (Server URL: https://foxleague.ai/mcp), and 'Authentication' (No Auth). There is a warning about custom MCP servers introducing risk, and a checkbox for 'I understand and want to continue' which is checked. The form has 'Back' and 'Create' buttons at the bottom.

New Plugin ×

 **Icon** (optional)
PNG only. Best results at 256 x 256 px or larger. Max file size: 10 KB

Name
FoxLeague

Description (optional)
Explain what it does in a few words

Connection Server URL Tunnel ⓘ
https://foxleague.ai/mcp

Authentication
No Auth

⚠ Custom MCP servers introduce risk. [Learn more](#)

I understand and want to continue
☒ Only connect to MCP servers you trust. An untrusted server may access or steal information shared through app use, or trick ChatGPT into using tools in unintended ways, including changing or deleting data.

OTHER WAYS IN

Claude Code (terminal)

```
claude mcp add --transport http  
foxleague https://foxleague.ai/mcp
```

VS Code (agent mode)

```
.vscode/mcp.json → "servers":  
{"foxleague": {"type": "http",  
"url": "https://foxleague.ai/mcp"}}
```

Gemini CLI (terminal)

```
gemini mcp add --transport http  
foxleague https://foxleague.ai/mcp
```

Cursor

```
~/.cursor/mcp.json → "mcpServers":  
{"foxleague": {  
"url": "https://foxleague.ai/mcp"}}
```

In the app's settings

Gemini (web app, US): Settings > Connected Apps > Custom apps

Grok: grok.com/connectors > New Connector > Custom

Le Chat: Connectors > Add Connector > Custom MCP Connector

No AI, just a browser

The MCP Inspector lists every tool and runs it by hand:

```
npx @modelcontextprotocol/inspector
```

QUESTIONS TO TRY

Copy one into your AI, one at a time.

Tournaments

"Which FoxLeague tournaments are open to join right now?"

"Which tournaments finished today and who won them?"

"What does it cost to enter a tournament and what are the rules to create one?"

Teams and managers

"Who are the top 10 FoxLeague teams right now?"

"Compare the top two teams: ratings, records and squads."

"Show me the squad of the number one team."

Market

"What are the cheapest cards on auction right now?"

"What is the floor price for each rarity on the FoxLeague market?"

"Which auctions end in the next hour?"

ONE PROMPT, SEVERAL TOOLS

"Give me a FoxLeague briefing: the top 5 teams with their records, the winner of the last tournament that finished and when I could start a new tournament tomorrow evening."

"I have 20,000 FOXSY. Which open tournament can I afford and who is the strongest team already in it?"

"Scout for me: which of the top 10 teams holds the most legendary cards?"

"Who climbed the leaderboard most in the last 30 days?"

EVERYTHING YOU NEED

The link for your AI

`https://foxleague.ai/mcp`

How to connect, step by step

`docs.foxleague.ai/connect-ai/`

The API reference

`docs.foxleague.ai/api/`

Play FoxLeague

`foxleague.ai`

Read-only and public: it never asks for your wallet and cannot pay, join or list anything.
